

Announcing collaboration with two new Health and Wellness Programs!

MFFCIP Joins Forces with Life Scan to Prioritize Member Health
The Missouri Fire Fighter Critical Illness Pool (MFFCIP) has joined forces with Life Scan Wellness Centers to offer early detection physicals to its members. This partnership reinforces MFFCIP's dedication to protecting Missouri's firefighters by identifying potential health issues before they become serious. Through Life Scan's advanced screening protocols, departments gain access to proactive care that supports long-term wellness and operational readiness.

See below for more info on how you can participate as a member of MFFCIP.

Partner with Life Scan: A Proven Health Benefit for Your Members

Life Scan Wellness Centers is proud to partner with leading organizations like the IAFF Health & Wellness Trust, LEOFF Trust, WPCA, and the Missouri Fire Fighter Critical Illness Pool (MFFCIP) to deliver early detection physicals tailored to the unique health risks faced by first responders.

We're actively seeking to expand these partnerships to other trusts and associations who are committed to protecting their members' long-term health. Here's why your trust should consider joining us:

- Specialized Early Detection Physicals
Our screenings are designed specifically for firefighters, law enforcement, and EMS personnel—targeting occupational risks like cancer, heart disease, and more.

- Nationwide Reach & Mobile Access
Whether your members are in urban centers or rural communities, we bring care to them.

- Customizable Programs
We work directly with each trust to tailor services, reporting, and scheduling to meet your operational and wellness goals.

- Trusted by Leading Organizations
Our partnerships with IAFF, LEOFF, WPCA, and MFFCIP demonstrate our commitment to quality, reliability, and impact.

- A Tangible Member Benefit
Offering Life Scan physicals shows your members that their health is a priority—building trust and loyalty within your organization.

Let's work together to bring proactive, life-saving care to your members. We'd love to explore how a partnership with your trust can make a lasting difference.

LIFE SCAN WELLNESS CENTERS AND THE MFFCIP

About Life Scan Wellness Centers

- Life Scan provides comprehensive annual physicals tailored for first responders
- Services include:
 - Advanced cardiac and cancer screenings
 - Lab work, ultrasounds, and fitness assessments
 - Early detection of occupational health risks
- Trusted by hundreds of departments nationwide

Who Is Eligible?

- Departments who are a part of the MFFCIP
- Active fire department members only
- Spouses and retirees on the plan are not covered for reimbursement but are welcome to utilize the services and pay an out of pocket fee at the same rate as the department

How to Get Started

- Fire departments should contact the MFFCIP Trust representative, Sherry Sweet
 - sherry.mffcip@gmail.com
- Sherry will then connect the department to LSWC for introductions and planning purposes

Participation Requirements

- A minimum of 45 participants is required per department
- Departments may:
 - Partner with other departments within the Trust
 - Collaborate with departments outside the Trust that already use or wish to use Life Scan services

Agreement Details

- Departments must sign a one-page agreement with Life Scan
- The agreement outlines:
 - Costs which will be invoiced to department and then department submits to Trust for reimbursement
 - Department responsibilities for:
 - No-shows (in excessive amount)
 - Additional labs or testing
 - Labs drawn without attending the appointment
